Addressing Conference

Conference History

This conference has evolved from URISA's successful Street Smart and Address Savvy Conference (held from 1999 to 2005):

- 1999: San Antonio, TX
- 2000: Baltimore, MD
- 2001: Milwaukee, WI
- 2002: Portland, OR
- 2003: Providence, RI
- 2004: St Louis, MO
- 2005: Austin, TX

In 2006 and 2007, the National Emergency Number Association (NENA) joined URISA as a full partner in this educational program and the conference was re-named to the Geospatial Integration for Public Safety Conference (GIPSC). GIPSC brought together GIS professionals, addressing coordinators, 9-1-1 and emergency response specialists to one place for opportunities in networking and learning.

- 2006: Nashville, TN
- 2007: New Orleans, LA

Following the 2007 conference, there was much discussion about bringing a bit more of the addressing focus back to the conference while continuing to bring the qualities of the GIPSC event to the program. The conference was renamed and refocused and was presented as the URISA/NENA Addressing Conference:

- 2008: Portland, OR
- 2009: Providence, RI
- 2010: Charlotte, NC
- 2011: New Orleans, LA
- 2012: Memphis, TN

The conference is developed through abstracts submitted through a Call for Presentations and is organized through the expertise of a volunteer conference committee.

Revitalized at the close of the 2012 Conference in Memphis, the conference was re-engineered and presented as:

Locating the Future Conference
November 3-6, 2013
St. Louis, Missouri

Conference Sponsors

About NENA – The National Emergency Number Association (NENA) is The Voice of 9-1-1™. Now celebrating its 25th Year, NENA was established to promote implementation and awareness of 9-1-1 as North America's universal emergency number. NENA has grown to become the leading professional non-profit organization dedicated solely to 9-1-1 emergency communications issues. For more information, visit www.nena.org

About URISA - Founded in 1963, the Urban and Regional Information Systems Association (URISA) is a nonprofit association for professionals involved in improving urban and regional environments through the use of information technology. For more information, visit www.urisa.org
