

Louisiana URISA invites you to  
our May Lunch and Learn

## High Accuracy GPS Data Collection: Bridging the Gap Between Surveying and Mapping

In conjunction with the LSU Center for GeoInformatics (C4G), this lunch and learn will discuss data collection and processing workflows to achieve survey-grade accuracy with GIS data. C4G will also have a short presentation on height modernization titled "The Geoid: From Whence it Came".

*1.5 Professional Development Hours will be earned, with certificates issued by LSU C4G.*

### Presenters:

Andrew Milanes, PE GISP

David Alford, GISP

Environmental Science Services, Inc.

<http://www.es2-inc.com>

Cliff Mugnier

Joshua Kent, PhD

LSU Center for GeoInformatics

<http://www.c4g.lsu.edu>

**Wednesday, May 18<sup>th</sup> (11:30 am – 1:30 pm)**

**Location:** LSU Union, Vieux Carre Room 325, Baton Rouge

Cost: **FREE** for LaURISA members!\*

(Attendees will need to provide their own lunch, which may be purchased at the Union. Presentations will begin at noon.)

Join LA URISA or find out about all our events at:

[www.ursa.org/chapters/louisiana-chapter](http://www.ursa.org/chapters/louisiana-chapter)

**Please register in advance on our website so that we may have the PDH certificates ready.**

\* (Lunch and Learn is also free to non-LaURISA members, but we encourage you to join anyways!!)
