

## 16TH ANNUAL CALIFORNIA GIS CONFERENCE

Geospatial Implementation in the 21st Century:  
Mapping California's Future

### CalGIS 2010 - Newsletter

#### Hello CA GIS Professionals!

I just wanted to share with you some of the recent developments for the CalGIS 2010 Conference to be held next April 18-21 in Huntington Beach. The Program Team just completed a site visit to the Hyatt Huntington Beach and it is quite spectacular.

We spent a full day reviewing the nearly 100 abstract submissions that were received and placed them into sessions and tracks for the conference. We were truly impressed with the quality of abstracts received. Be certain to check out the specific program [details online](#), with individual speaker and presentation details.

#### We will have 8 Track Topics over 3 days to include:

- Emerging Technology
- GIS Operations
- Natural Resources
- **Coastal Resources (NEW)**
- Public Safety & Emergency Preparedness
- Hot Topics
- Education
- Public Health
- **Department of Homeland Security (DHS) Summit (NEW)**

#### We have 2 confirmed keynote speakers:

**James Fee, GISP**  
Evangelist for WeoGeo

**Michael Byrne, GISP**  
GIO State of California

#### We are offering 5 Pre-Conference Workshops:

- Asset Management
- GIS Program Management
- Open Source GIS
- NOAA Coastal Inundation Mapping Workshop
- NOAA Habitat Priority Planner (HPP) Training

And if that is not enough excitement for you then check out the facilities and you will know that this CalGIS is not to be missed:

**Conference Facilities (Ballrooms & Foyer):**

**Social Gathering Areas (Fire Pit & Poolside Bar):**

Recreation/Family Areas (Pools/Waterslide/Beach/24HR Fitness Center):

**Relaxing Areas (Pool & Spa):**

Hope to see you all in Huntington Beach early next year! Go and register for this event at <http://www.calgis.org>!

Happy Holidays to you and your families!
