Announcing the URISA 50/50 Campaign

Has URISA touched your life in a way no other organization does?

URISA continuously strives to have an impact on the GIS community and to be relevant and important. URISA is approaching its 50th Anniversary and in order to make sure the organization is positioned to reach its 100th Anniversary, we need to build reserves to invest in URISA's future. We are asking for your help.

The goals for the URISA 50/50 Campaign are:

- To help build our unrestricted net assets to the recommended range of 50% of our annual budget
- Establish a fund that could generate interest income for URISA operations and other designated purposes such as:
 1. Supporting scholarships
 2. Funding remote education
 3. Establishing new chapters
 4. Funding research proposals
 5. Supporting new membership initiatives

Contributions to URISA — a 501(c) (3) organization — **are tax deductible.** As you complete your membership renewal or do your year-end tax planning, please consider making a donation to URISA. All contributions will be used to further the mission of URISA through the support of existing programs and the development of new programs for the association.

Name _____
