URISA
701 Lee St
Suite 680
Des Plaines, IL 60016

Dear Members of the Board:

Louisiana URISA (LA URISA) is writing to express its support of OneURISA implementation. We understand and benefit from being part of a substantial group of GIS professionals working to promote a standard educational background and outreach throughout the geospatial community. The Louisiana Chapter of URISA through its URISA association has enjoyed:

- Basic Chapter organization advice and materials as needed
- URISA web services and registrations for its events
- Support for all workshop and educational materials when requested
- Speakers representing URISA traveling to Louisiana when important events such as Addressing Standards are initiated
- Speakers representing GISCI when GISP information is needed
- Mentorship
- URISA's advocacy for the members and the GIS profession

Louisiana URISA supports the ongoing efforts of URISA and believes that its current International members will remain members with the \$20.00 increase. Louisiana URISA will continue its local outreach services, Lunch and Learns, workshops and Mappy Hours and invite all interested parties and special interest groups to participate, hopefully increasing OneURISA membership from Louisiana.

Louisiana URISA would appreciate the consideration of the URISA Board of Directors in choosing New Orleans as its location for GISPro 2019. LA URISA will support the conference and participate in any way possible. We all look forward to hosting this important conference next year.

We appreciate your consideration,

LA URISA President:

A handwritten signature in black ink that reads 'Andrew Milanés'.

Andrew Milanés, PE, GISP
