July 30, 2018

Dear URISA Board of Directors and Staff,

NorCal has been so excited to see movement on OneURISA. The Northern California Chapter of URISA believes OneURISA represents a strong step forward in creating a modern and beneficial organization for all members, both chapter and international. While we know many details are still to be worked out, we support moving forward with the OneURISA initiative.

We would also like the record to state that we have had URISA International managing our membership database and handling membership payments for over half a decade now and have been very well supported by URISA Staff. Additionally, URISA Staff have handled conference management duties for CalGIS (which NorCal URISA is a partner in) for many years and we have been impressed with how smoothly and well budgeted CalGIS runs when URISA International Staff manage it. We look forward to continuing good relationships across all chapters and with the international board and staff.

Thanks,

Christina Boggs-Chavira
NorCal URISA President

CC: NorCal Board of Directors, Wendy Nelson – Executive Director of URISA
