

Take Advantage of a URISA SoCal Pass to GIS-Pro & CalGIS 2018!

**Can't attend the full conference this year, because of budget, workload or other obligations?
Perhaps you can join us for a workshop, a single day of the conference, or a few hours in the exhibit hall?**

There are eight workshops being presented on Tuesday, October 9 and attendance at a workshop is included with full conference registration. Each course is listed below and detailed [online](#).

- GIS Program Management
- A Practical Introduction to Open Source GIS
- National Hydrography Dataset (NHD) Applications
- Managing Addressing for the 21st Century
- Asset Management Systems 201 (half-day, morning)
- NG9-1-1 and the GIS Workflow (half-day, afternoon)
- Health Applications of Geographic Information Science
- Preparing for GISP Certification (*full, no availability*)
- UAS Mapping Outputs: A Hands-on Course for Integrating UAS Data into GIS Workflows

If it works better with your availability and budget, you may register for a workshop without attending the rest of the event, for \$195. Register online or complete a form [here](#).

Further, if you can attend the event only on Wednesday or Thursday or Friday, there are single-day registration options available. Peruse the [online program](#) to see which day offers the most breakout sessions, keynote addresses, and events that seem to be most valuable for your needs and register for that day online or via the form [here](#).

If your time is even more limited, we're happy to offer a free Exhibit Hall pass. Check out the list of [exhibitors](#) who will be participating this year. Note that the exhibit hall pass does not allow access to social/networking or educational events and is valid only on Wednesday, October 10 or Thursday, October 11 between 10:00 AM and 4:00 PM.

Please complete and bring this form (or attach a business card) to the GIS-Pro & CalGIS 2018 Registration Desk at the Renaissance Palm Springs (888 Tahquitz Canyon Way, Palm Springs, CA 92262) for your complimentary exhibit pass.
