

## Program Track: GIS Supporting Health & Human Services

The GIS Supporting Health & Human Services track will explore topics related to public health, the COVID-19 pandemic, supply chain disruptions, and contact tracing. The track offers a variety of presentations and featured panels.

### Featured Panels

#### Thursday, October 1

10:00 am - 11:00 am	<u>GIS and the Pandemic</u> Hear from Johns Hopkins University and Esri on the development of COVID-19 dashboards to support decision-making and transparency.	<a href="https://sched.co/berW">https://sched.co/berW</a>
1:00 pm - 2:00 pm	<u>Innovations in Forecasting and Addressing Supply Chain Disruptions During COVID-19</u> Learn from colleagues who supported resource allocation, prioritization, and tracking for COVID-19. This session will highlight lessons learned in data-driven resource allocation, effective uses of geospatial tools, and a whole-of-government approach that is essential for success.	<a href="https://sched.co/berc">https://sched.co/berc</a>

### Presentations

#### Tuesday, September 29

2:00 pm - 3:00 pm	Public Health GIS	<a href="https://sched.co/beMM">https://sched.co/beMM</a>
-------------------	-------------------	---

#### Thursday, October 1

11:00 am - 12:00 pm	Spatial Analysis for Public Health: Perspectives from Johns Hopkins	<a href="https://sched.co/bel9">https://sched.co/bel9</a>
2:00 pm - 3:00 pm	GIS & COVID-19 Contact Tracing	<a href="https://sched.co/dvZu">https://sched.co/dvZu</a>

All times listed are in Central Time.
