

In Honor of Geographic Information System (GIS) Day

LaURISA presents "A Day of GIS Service in New Orleans"

The Louisiana Chapter of Urban and Regional Information Systems Association has lined up a free workshop for high school and university professors and students. GIS professionals have volunteered their time to present to and work side-by-side those who attend. The attendees will learn how to use multiple mobile data collection apps, such as, ESRI Collector, ESRI Survey123, and Trimble Terraflex.

Instructors: Micheal Beavers, Solution Engineer at Environmental Systems Research Institute
Eric Bock, GISP, Mapping and GIS Support & Training Manager at Navigation Electronics Inc.
Andrew Milanese, PE, GISP, Vice-President at Environmental Science Services, Inc.
Chad Neto, GISP, Chief Operations Officer at Chustz Surveying, LLC.
Volunteers: John Adams, GISP, GIS Analyst at Orleans Parish Communication District
Liz Lowe, GIS Technician at New Orleans City Park

Location: Administration Building at New Orleans City Park, 1Palm Dr., New Orleans, LA 70124
Date: Saturday, November 10th, 2018
Time: Doors Open @ 9:30am | Starts @ 10:00am | Ends @ 3:00pm
Class Size: 40 seats (4 seats per school)
