9AM - 3PM

Instructed by:
Jennifer Harrison, MSc., GISP
President of TeachMeGIS

Course Discription:

This hands-on workshop introduces ArcGIS users to the ArcGIS Pro software. The class begins with the basics of logging on to Pro and connecting to a portal, and then walks through the process of creating maps and optimizing the display of the data. A quick introduction to queries and geoprocessing in ArcGIS Pro will be covered, as well as the process of making Layouts. At the completion of this course, existing ArcGIS users should have a good foundation of ArcGIS Pro skills.

Laptops & Licenses:

- 25 seats at both locations
- 15 laptops will be available (must register online to reserve a laptop)
- Personal laptops must have ArcGIS Pro 2.0 or 2.1 software that can run when they are off of their network
- Contact Andrew Milanese, amilanes@es2-inc.com, if you need any help making sure your laptop is setup correctly
