

Louisiana URISA invites you to  
our Spring Lunch and Learn

## **The Legal Path to Fly UAs**

Learn about some of the coolest new technology about flying cameras at our next Lunch and Learn workshop. Lafayette-based Navigation Electronics Inc. (NEI), is sponsoring this session. The legal path to fly UAS for commercial use has been in place for some time now, but with a recent change by the FAA it is now easier than ever for businesses to fly both fixed wing and multi-rotor unmanned aerial systems.

Presenters: Thell Gillis and Bernard Lemoine

<http://www.neigps.com/about/>

**Lunch  
N Learn**

**Tuesday, *April 12<sup>th</sup>* (11 am – 1 PM)**
