

LA URISA: "NEWS YOU CAN USE"

July 2018 Newsletter

OneURISA:

LA URISA is one of the first 2 chapters to be Early Adopters of OneURISA!

Since the 1990's, URISA chapters and leadership have been taking steps toward a more coordinated membership similar to the structure of most professional organizations, where all members are part of one organization, greatly increasing engagement, information sharing, and professional opportunities. This exciting initiative has finally reached implementation and we are well on our way to making this long-term vision a reality!

The implementation of OneURISA will expand the overall services and opportunities the organization provides to individual members and chapters and enhance the organization's presence at the local, national and international levels. To learn more about this membership initiative and view a listing of Chapters that have begun the OneURISA implementation process please [click here](#).

Visit the new URISA website to check out all of the programs and products URISA is rolling out to provide even more value to our members. URISA has recently approved and will be launching several new Special Interest Groups (SIG), released the GIS Salary Survey, and has expanded opportunities for the URISA GIS Leadership Academy. <http://www.urisa.org/>

URISA looks forward to seeing you at GIS-Pro & CalGIS 2018 in Palm Springs in October!
